NON-COMBUSTABLE

FIBRE CEMENT EXTERNAL CLADDING

James Hardie® fibre cement cladding offers a non-combustible (A2-s1, d0) exterior solution with authentic cedar or smooth finishes. Engineered for superior fire safety, durability, and fade resistance, Hardie® Plank installs easily in multuple styles - horizontal, vertical, shiplap, or open-jointed - providing flexible, long-lasting performace for demanding residential and commercial projects.

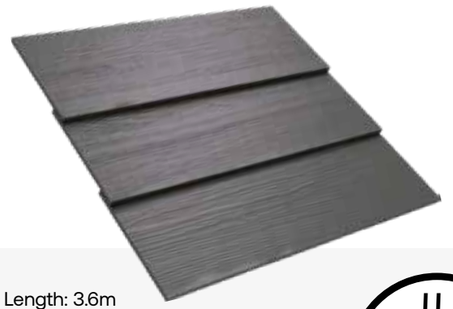
VL PLANK COLOUR OPTIONS

HARDIE PLANK COLOUR OPTIONS

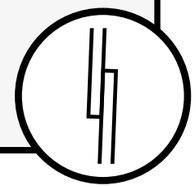
Hardie Plank®

Hardie® Plank offers a classic weatherboard style, traditionally installed in overlap or shiplap, with the versatility to create modern vertical hit-and-miss designs.

Cedar or Smooth



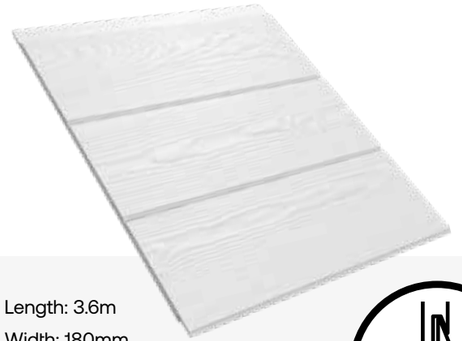
- Length: 3.6m
- Width: 180mm
- Thickness: 8mm



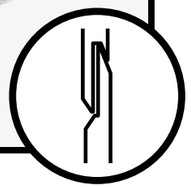
Hardie VL Plank®

Our innovative tongue-and-groove system delivers a sleek, modern look with seamless interlocking boards - versatile, stylish, and at least 20% faster to install. Contemporary cladding made easy.

Cedar



- Length: 3.6m
- Width: 180mm
- Thickness: 11mm



NON-COMBUSTABLE

FIBRE CEMENT CLADDING TRIMS & JOINTS

Add the finishing touch with trims that defines your design - perfect for doors, windows, corners and more.

SLAT WALL

ACOUSTIC WALL PANELS

Elevate interiors with installer-friendly acoustic slat wall panels where modern design meets sound absorption. They are made with wood, real oak veneer, and use 100% recycled PET felt. At 2.6m high, panels suit older properties without butt joints. Lightweight, easy to fit, and sold individually to reduce waste. They're ideal for residential or commercial projects focused on style, efficiency, and sustainability.

TECHNICAL SPECIFICATIONS

- Length: 2600mm
- Width: 600mm
- Thickness: 18mm
- Pack quantity: 1
- Slats per panel: 15
- Slat width: 26mm
- Width between slats: 14mm
- Coverage: 1.56m^2 per panel
